Math 9	Science 9								
SS 9	English 9								
PE 9	Elective								
Elective	Elective								

Please answer the following questions in the space provided. Feel free to add additional paper if necessary.

1. What do you believe a year-long AVID/Math 10 F&P class will help you to achieve?

2. Describe what you believe a “successful student” does in class and out of class. Also, explain what you believe you might need to change about yourself to become like this successful student.

3. **AVID** stands for *Advancement Via Individual Determination*.

How are you *individually determined* to contribute positively to an AVID/Math 10 class in order to make it successful for yourself, your peers, and your teacher? (Comment on your commitment to learning, active participation, attention to skill development & homework, etc.)

4. **What are your post-secondary plans? What do you hope to study? In what future career areas are you interested? Are they academic or trades-based?**
