

Royal Bay Soccer Academy Partners with Pacific FC

When there's a professional soccer club in your community, you partner with it! The Royal Bay Soccer Academy is now 'Powered by Pacific' as the Pacific Football Club (Pacific FC) creates a partnership with Royal Bay Secondary.

Looking to bring enhanced training opportunities for the Soccer Academy students, RBSS contracted Pacific FC to provide a balanced program for both recreational and high-performance players. Training will include on-field skills and scenarios as well as off-field physical and mental preparation.

"We are looking forward to working with student athletes at Royal Bay, to help them develop, both as players and as people," says James Merriman, Associate Head Coach & Technical Director, Pacific FC. "These years are key to developing their technique, insight, personality and speed."

Club staff will work closely with Academy teachers to continue to provide a wholesome training experience for players.

"We have an active soccer community here at the school and this partnership will help our students take their game to the next level," says John Mennie, Soccer Academy Director, Royal Bay Secondary School. "Our Academy students will benefit from the guidance and expertise Pacific FC brings to the table."
